

Pregnancy Notification Incentive - Diagnosis Code Update

Effective for dates of service on and after October 1, 2015, please use ICD-10 Z32.01 (encounter for pregnancy test, result positive) on your claim form. This is a billable code to indicate diagnosis for reimbursement purposes. Molina Healthcare of New Mexico will then **reimburse your office \$100.**

Why do we offer this incentive? When we are informed of a new pregnancy, Care Coordinators and Quality Improvement Specialists reach out to the Member to inform them about programs and services available through our health plan. One of their benefits is our ***motherhood matterssm*** program that offers expecting mothers certain benefits and classes to help improve the outcomes of their pregnancy.

Prenatal and Postpartum Care Incentives

Molina Healthcare continues to provide additional reimbursement for prenatal and postpartum care when the following codes are billed:

Prenatal Care: Receive \$30.00 each visit – up to 13 visits

- CPT II code 0500F– initial prenatal care visit; and
- CPT II code 0502F – subsequent prenatal visits

Postpartum Care – Receive \$30.00 for visit

- CPT II code 0503F

As always, our goal is to provide you with excellent customer service and support. If you have any questions, please call our Provider Services department toll free at (800) 377-9594, Monday through Friday between 8:00 a.m. and 5:00 p.m.

Thank you for taking good care of our Members.
