

Medicare Part B Cost Sharing Payment Changes

Information for providers in the Medicare and MyCare Ohio networks

Effective Jan. 1, 2016, new payment methodology for Medicare Part B cost sharing applies to all providers seeing Medicare-eligible members. Payment for Medicare Part B crossover claims will not exceed the Medicaid primary payer amount. If the sum of the amounts paid by Medicare and all other third party insurers exceeds the Medicare or Medicaid approved amount, Molina Healthcare will not make any additional payment, or will make a payment of \$0, and the service(s) will be considered paid in full.

Previously exempt individual providers, including physicians, dentists, optometrists, podiatrists, chiropractors, nurse practitioners and certified-registered nurse anesthetists (CRNAs), are now subject to this rule. Ambulatory Surgery Centers (ASC) and End Stage Renal Disease (ESRD) providers remain exempt. For more, refer to [Ohio Administrative Code 5160-1-05.3](#).

MyCare Ohio Crossover Claim Process

Information for providers in the MyCare Ohio network

As of November 2015, Molina Dual Options MyCare Ohio is using the Medicare crossover claim process. For Molina MyCare Ohio Medicaid (opt-out) members with Medicare Fee-For-Service as primary coverage, providers are no longer required to submit secondary claims directly to Molina Healthcare. This does not apply to members with primary coverage through Medicare Part C.

Management of Children Prescribed Psychotropic Drugs

Information for providers in all networks

Providers caring for members with multiple medical and/or psychiatric conditions must manage complex medication regimens and combinations. Despite therapeutic uncertainty, prescriptions written for pediatric populations are growing. For 1- to 17-year-olds, it's common for patients to use individual psychotropic drugs and combinations of these drugs. The best outcome requires prescriber vigilance against polypharmacy, periodic follow-up and evaluation of a physical exam and lab data.

Avoid multiple psychotropic medications or polypharmacy when possible and consult a specialist when considering using more than three. Molina Healthcare is tracking two related Healthcare Effectiveness Data and Information Set (HEDIS®) measures in 2016 to help define prevalence and safe prescribing:

1. **Metabolic monitoring for children and adolescents on antipsychotic drugs (APM)**
 - a. Children may be particularly susceptible to metabolic effects of antipsychotic medications.
 - b. Record at least one test for blood glucose or HbA1c and at least one test for LDL-C or cholesterol. Monitor

Prevent Claim Rejection

Effective Jan. 1, 2016, Molina Healthcare requires providers to bill claims in date and rev code order, or the *claims will be rejected/denied*. The requirement is per the Ohio Department of Medicaid (ODM).

Reaching a Care Manager

Information for providers in the MyCare Ohio network

Calling a member's Care Manager directly is the best way to contact him/her with important information, including change in status or address. If the Care Manager's name or direct number is unknown, call Provider

frequently for patients with family history of diabetes, metabolic syndrome or cardiovascular disease.

2. Use of multiple concurrent antipsychotics in children and adolescents (APC)

- a. Applies to children 1- to 17-years-old on two or more different concurrent medications for at least 90 days.
- b. Current total rate is 2.59 percent, with lower being better.

Refer your patients and families to the Personal Decision Guide and the Medication Side Effects Watch List at www.ohiomindsmatter.org. These tools are designed to help patients and providers learn about safely taking these medications.

Pharmacy Preferred Drug List

Information for providers in the Medicaid network

Molina Healthcare regularly reviews and updates the [Preferred Drug List \(PDL\)](#). Items may be added, removed or changed. To view the list, visit www.MolinaHealthcare.com/Providers/OH under the “Rx Info” tab.

Some items require a prior authorization (PA). View the [PA List](#) to see which drugs require PA.

Clear Coverage™ Corner – Training

Information for providers in all networks

Start using Clear Coverage™ to reap the benefits of an authorization system that may provide an automatic decision. To learn more, join the next training session, also available on mobile devices.

Fri., Jan. 15 from 9 to 10 a.m., Meeting Number: 805 049 616

Fri., Feb. 19 from 9 to 10 a.m., Meeting Number: 800 252 765

Fri., March 18 from 9 to 10 a.m., Meeting Number: 800 964 155

1. Go to <http://molina.webex.com>.
2. Enter the meeting number.
3. If requested, enter your name and email address.
4. Provide your number to get a call back.
5. Follow the instructions.

You can request an on-site training from your Provider Services Representative or by emailing OHProviderRelations@MolinaHealthcare.com.

New ODM Sterilization Consent Form Effective Immediately

Information for providers in the Medicaid network

ODM has released a new federal Sterilization Consent Form (HHS-687). Please begin using the new form immediately. The form is posted to www.hhs.gov/opa/pdfs/consent-for-sterilization-english-updated.pdf. The form will be added to Molina Healthcare’s website in the next few weeks.

Services and follow the prompts:

- Dial (855) 322-4079
- For Medicare-Medicaid (full benefits) members, press 1
- For Medicaid only (opt-out) members, press 2
- Press 5 for Care Management

A representative will take the information and provide the name and direct number of the member’s current Care Manager.

Make the Most of Flu Season

The flu vaccine is a covered benefit for all Molina Healthcare members. Thank you for your help in keeping your patients healthy this flu season.

Tips for Flu Season

- Educate patients on the importance of the vaccine and that the flu vaccine will not give patients the flu.
- Provide a list of local pharmacies if you do not offer the vaccine. Visit www.MolinaHealthcare.com and click “Find a Pharmacy” for a list of contracted pharmacies.
- Turn reminders and prompts on for patient records for the flu vaccine.

Molina Healthcare uses the Advisory Committee on Immunization Practices (ACIP) recommendations, including an annual flu shot for those 6 months and older. It is especially important for those who are, live with or care for persons with high-risk of serious flu-related complications.

For more recommendations and updates, visit the Centers for Disease Control and Prevention at www.cdc.gov/flu/professionals/vaccination.
