

## 2018 Open Enrollment

### Information for all network providers

Ohio Medicaid and MyCare Ohio consumers can change their Medicaid managed care plans from now until Nov. 30, 2018. The Ohio Department of Medicaid (ODM) sent letters in July and August to notify consumers of the open enrollment period.

Consumers can get more information on plan options or change plans by calling the Medicaid Hotline at (800) 324-8680. If a consumer changes plans, the change will be effective the first day of the following month. Consumers can submit a request online at [www.ohiomh.com](http://www.ohiomh.com). Current Molina Healthcare members do not need to take any action to stay enrolled with us. The Marketplace 2019 Open Enrollment will run from Nov. 1 to Dec. 15, 2018.

## Did You Know?

Did you know Molina is partnering with Ohio Department of Medicaid (ODM) on the State Innovation Model (SIM) through two key programs that will improve quality care and cost efficiency: Comprehensive Primary Care (CPC) and Episodes of Care.

CPC is a patient-center medical home program with the primary goals of improving care coordination and patient access. Participating practices are eligible for payment for meeting a majority of activity, quality and efficiency metrics. Payment can be on a per-member-per-month basis or by a shared savings plan.

non-emergency transportation claims including a valid street, state, city and zip code

- If the ambulance pickup location is in an area where there are no street addresses, enter a description of where the service was rendered, e.g. “crossroad of State Road 34 and 45” or “exit near mile marker 265 on Interstate 80”

Accident state (CLM11-1 and CLM11-2) should be accurately billed for accident claims to indicate in which state the accident occurred.

- AA – Auto Accident
- EM – Employment
- OA – Other Accident

## National Drug Code (NDC) Billing Guidelines

### Information for all network providers

Effective Jan. 1, 2019, claims submitted with an SE modifier by providers not listed as an approved 340B drug supplier will be denied. Drugs acquired through the 340B drug pricing program must be billed with an SE modifier so they can be properly excluded from federal drug rebates.

Per the final Medicare 2018 Outpatient Prospective Payment System rule, modifiers JG and TB will be used to signify use of a 340B drug. For claims that crossover directly to ODM from Medicare, ODM will request rebates for eligible drugs, as appropriate. If a provider submits a claim for a dually eligible individual directly to ODM, ODM will expect proper reporting of the SE modifier in accordance with ODM guidelines. This is important for providers who serve both Medicaid and MyCare Ohio members.

All professional and outpatient claims with CPT/HCPCS/Rev drug code details must have the corresponding valid NDC code submitted with the CPT/HCPCS drug code or the claims will be denied.

Additional information is available by searching “Medicare 340B Reimbursement” at <http://www.healthlawpolicymatters.com> or in the Provider Manual on our website.

## Third Party Biller Functionality on Provider Portal

### Information for all network providers

Third Party Biller Functionality has been added to the Provider Portal. This update allows the administrator to grant access to third party billers by following the same process used to invite a new user under “Account Tools”, under “Manage Users” at <https://provider.MolinaHealthcare.com>.

Select “Biller” for the type of role and confirm the invitation is for a third party biller outside of your organization. Both of the attestation boxes have to be selected for the invitation to be sent successfully. Third party biller access can be removed by following the same process an administrator would use to remove any other user.

## 2018/2019 Flu Season Recommendations

### Information for all network providers

Molina has adopted the Advisory Committee on Immunization Practices’ (ACIP) Influenza Vaccination Recommendations that all people six months of age and older who do not have contraindications should receive licensed, recommended and age-appropriate flu vaccinations.

**Note:** Please review the entire set of recommendations, including information about persons at risk for medical complications due to severe

Episodes of Care include all care related to a medical event (e.g. pregnancy, appendectomy). For each defined episode, a principal accountable provider (PAP) is identified and responsible for quality measures and total cost. Providers are eligible for additional payment based on their performance against an ODM-determined threshold.

Payments are either:

- Gain-sharing: received if the average cost is below the threshold and quality metrics are met
- Risk-sharing: Owed back to Molina if the average cost is above the threshold

Molina has 13 live episodes, with an additional 30 set to go live by 2021.

## Notice of Changes to Prior Authorization (PA) Requirements
