

Providing Preventive Care in an OB/GYN Setting

Molina Healthcare is committed to promoting primary preventive care for members. In an effort to ensure that female members receive all needed preventive care, Molina Healthcare encourages OB/GYNs to provide preventive care services in conjunction with obstetrical/gynecological visits.

When providing care to Molina Healthcare members, consider performing an annual well exam in addition to obstetric/gynecological services.

Services required during a well exam that should be documented in the medical record are:

- A health and developmental history (physical and mental)
- A physical exam
- Health education/anticipatory guidance

Note that:

- Preventive services may be rendered on visits other than well care visits, *regardless of the primary intent of the visit.*
- The appropriate diagnosis and procedure codes must be billed to support each service.
- A well exam and an ill visit can be paid for the same office visit, provided that the appropriate procedure and diagnosis codes are included for both services.

Coding for Well Care Services

Well Care Visit	CPT	ICD 9
Adolescent/Adult Well Care Visits (12-39 years)	99384-99385, 99394-99395	V 20.2, V 70.0, V 70.3, V 70.5, V 70.6, V 70.8, V 70.9
