

HEDIS® Tips:

Follow-Up After Emergency Department Visit for Alcohol and Other Drug Abuse or Dependence (FUA)

MEASURE DESCRIPTION

The percentage of emergency department (ED) visits for members 13 years of age and older with a principal diagnosis of alcohol or other drug (AOD) abuse or dependence, who had a follow up visit for AOD. Two rates are reported:

1. The percentage of ED visits for which the member received follow-up within 30 days of the ED visit (31 total days).
2. The percentage of ED visits for which the member received follow-up within 7 days of the ED visit (8 total days).

USING CORRECT BILLING CODES

Codes to Identify Follow-up Visits

HOW TO IMPROVE HEDIS SCORES

- ☐ Schedule a follow-up visit within 7 days and at least two additional visits within 30 days, or refer immediately to a behavioral health provider when giving a diagnosis of alcohol or other drug dependence. Contact Molina Case Management if assistance is needed to obtain follow-up appointment.
- ☐ Refer the member to a Molina Care Manager or work collaboratively with the Molina Care Manager if one is already assigned to help increase member's access and motivation for treatment.
- ☐ Follow-up visits must be supported by a claim, encounter or note from the mental health practitioner's medical chart in order to count toward the measure.
- ☐ Document identified substance abuse in the patient chart and submit a claim with the appropriate codes, as described above.
- ☐ In situations where there are comorbid medical conditions, include all diagnoses to include the substance use related codes (ex. Cellulitis- L03.90 related to Intravenous Drug use F11.20) as these also qualify patients for the measures.
- ☐ Provide patient educational materials and resources that include information on the treatment processes and options, including mutual support groups and other community-based programs.
