## Follow-Up After Emergency Department Visit for Alcohol and Other Drug Abuse or Dependence (FUA)

### MEASURE DESCRIPTION

The percentage of emergency department (ED) visits for patients 13 years of age and older with a principal diagnosis of alcohol or other drug (AOD) abuse or dependence, who had a follow up visit for AOD. Two rates are reported:

1. The percentage of ED visits for which the patient received follow-up within 30 days of the ED visit (31 total days).
2. The percentage of ED visits for which the patient received follow-up within 7 days of the ED visit (8 total days).

### HOW TO IMPROVE HEDIS SCORES

- ☐ Schedule a follow-up visit within 7 days and at least two additional visits within 30 days, or refer immediately to a PCP or behavioral health provider when giving a diagnosis of alcohol or other drug dependence. Telephone and/or telehealth appointments within the required timeframe meets compliance.
- ☐ Refer the member to a Molina Care Manager or work collaboratively with the Molina Care Manager if one is already assigned to help increase member's access and motivation for treatment.
- ☐ Follow-up visits must be supported by a claim, encounter or note from the mental health practitioner's medical chart in order to count toward the measure.
- ☐ Document identified substance abuse in the patient chart and submit a claim with the correct billing codes.
- ☐ Review situations where there are comorbid medical conditions. Be sure to include all diagnoses and use substance use related codes (ex. Cellulitis- L03.90 related to Intravenous Drug use F11.20) as these also qualify patients for the measures.
- ☐ Provide patient educational materials and resources that include information on the treatment processes and options, including mutual support groups and other community-based programs.
