

Diabetes Monitoring for People with Diabetes and Schizophrenia

MEASURE DESCRIPTION

Adults 18-64 years of age with schizophrenia and diabetes who had both an LDL-C test and an HbA1c test during the measurement year.

USE CORRECT BILLING CODES

Description	Codes
Codes to Identify HbA1c Tests	CPT: 83036, 83037 CPT II: 3044F (if HbA1c<7%), 3045F (if HbA1c 7%-9%, 3046F (if HbA1c>9%)
Codes to Identify LDL-C Tests	CPT: 80061, 83700, 83701, 83704, 83721 CPT II: 3048F, 3049F, 3050F
Codes to Identify Schizophrenia	*ICD-9 CM: 295.00-295.05, 295.10-295.15, 295.20-295.25, 295.30-295.35, 295.40-295.45, 295.50-295.55, 295.60-295.65, 295.70-295.75, 295.80-295.85, 295.90-295.95 ICD-10 CM: F20.0-F20.3, F20.5, F20.81, F20.89, F20.9, F25.0, F25.1, F25.8, F25.9
Codes to Identify Diabetes	*ICD-9 CM: 250.00-250.93, 357.2, 362.01, 362.07, 366.41, 648.00-648.04 ICD-10 CM: E10, E11, E13, 024

*ICD-9 codes are included for historical purposes only and can no longer be used for billing.

HOW TO IMPROVE HEDIS® SCORES

- ☐ Review diabetes services needed at each office visit.
- ☐ Order labs prior to patient appointments. PCP should notify the BH professional of forthcoming labs.
- ☐ Order a direct LDL if patient is not fasting to avoid a missed opportunity. Some lab order forms have conditional orders – if fasting, LDL-C; if not fasting, direct LDL.
- ☐ BH providers (MD, NP or other professional with lab ordering ability) should order diabetic tests for patients who do not have regular contact with their PCP. The BH provider then coordinates medical management with the PCP.
- ☐ Bill for point of care HbA1c tests if completed in office. Ensure HbA1c result and date are documented in the chart.
- ☐ Adjust therapy to improve HbA1c, LDL, and BP levels; follow-up with patients to monitor changes.
- ☐ Give any patient caregiver instructions on the course of treatment, labs or future appointment dates.
- ☐ Monitor body mass index, plasma glucose level, lipid profiles and signs of prolactin elevation at each appointment.
- ☐ Educate patients about appropriate health screenings with some medication therapies.
- ☐ Refer patients for Health Management interventions and coaching by contacting Health Care Services at your affiliated Molina Healthcare State plan.
- ☐ Care Coordination with the patient's behavioral health provider is a key component in the development of a comprehensive treatment plan.
- ☐ Ensure your patient has an understanding of the local community support resources and what to do in an event of a crisis.
- ☐ Provide information about the importance of monitoring their emotional well-being and following up with their BH provider.

*South Carolina Healthy Connections Medicaid program may not cover all codes listed on this tip sheet. Please refer to your provider manual and the SCDHHS fee schedule for your specialty for a list of covered codes.
