

# HEDIS® Tips:

## Follow-up Care for Children Prescribed ADHD Medication (ADD)

### MEASURE DESCRIPTION

Patients 6-12 years old, with a new prescription for an attention-deficit/hyperactivity disorder (ADHD) medication who had:

- At least one follow-up visit with practitioner with prescribing authority during the first 30 days of when the ADHD medication was dispensed. (Initiation Phase)
- At least two follow-up visits within 270 days (9 months) after the end of the initiation phase. One of these visits may be a telephone call. (Continuation and Maintenance Phase)

### USING CORRECT BILLING CODES

#### Codes to Identify Follow-up Visits

### HOW TO IMPROVE HEDIS SCORES

- ☐ Schedule a follow-up visit within 30 days to assess how the medication is working when prescribing a new medication to your patient. Schedule this visit while your patient is still in the office.
- ☐ Schedule two more visits in the 9 months after the first 30 days to continue to monitor your patient's progress. Visits must be on different dates of service.
- ☐ Use a **phone visit** for one of the visits after the first 30 days. This may help you and your patients if getting to an office visit is difficult (**codes: 98966-98968, 99441-99443**). Only one phone visit is allowed during the Continuation and Maintenance Phase. If a phone visit is done, at least one face-to-face visit should also be completed.
- ☐ Do not continue these controlled substances without at least 2 visits per year to evaluate a child's progress. Monitor the child's growth at each visit to ensure the child is on the appropriate dosage.
- ☐ For additional support and medication adherence, refer patient/family/caregiver for Care Coordination/Case Management by contacting your affiliated Molina Healthcare State plan.
- ☐ Ensure the parents/guardians have an understanding of the local community support resources and what to do in an event of a crisis.
