## **Global Strategy for Diagnosis, Management and Prevention of COPD Guidelines**

Molina Healthcare adopted the Global Strategy for Diagnosis, Management and Prevention of COPD Guidelines from the Global Initiative for Chronic Obstructive Lung Disease.

The guidelines were reviewed and adopted by the Molina Healthcare National Quality Improvement Committee on February 12, 2020.

The guidelines were also reviewed and adopted by the Molina Healthcare of Washington Quality Improvement Committee on March 2, 2020.

Clinical guidelines are not used by Molina Healthcare to decide benefit coverage. The guidelines are an educational tool to aid clinical decision-making. They are not a standard of care. The physician should adapt the guidelines when clinical judgment so indicates.
