Molina reviews the survey results closely, and the results are used to find ways to better serve our members and help them live a healthier life. The information is also applied to our work with providers and other health care partners. Together, our goal is to help drive quality improvements while enhancing the member experience.

Survey results are used by external agencies and members to judge the quality of Molina services. State partners may use the survey when selecting health plans, rating health plans for consumers and awarding bonus incentives.

Case Review via Livanta

Information for MyCare Ohio and Medicare providers

Ohio's designated Quality Improvement Organization, Livanta, was recently required to transition to a new Centers for Medicare and Medicaid Services (CMS) case review system known as Quality Management and Review Systems (QMARS). This implementation has led to an increase in the time required to complete case reviews. For additional information visit www.livantaqio.com and select "Click here" on the red header bar.

2020 HEDIS® Data Collection

Information for all network providers

The Healthcare Effectiveness Data and Information Set (HEDIS®) from the National Committee for Quality Assurance (NCQA) is used to report performance on quality of care and service. As a reminder, Molina started collecting this data in February. We appreciate your prompt response to requests.

Molina is required to collect medical record documentation from providers to fulfill state and federal regulatory and accreditation requirements. Health Insurance Portability and Accountability (HIPAA) regulations permit a covered entity (physician practice) to disclose protected health information (PHI) to another covered entity (health plan) without enrollees' consent for the purpose of facilitating health care operations.

Molina will reach out to providers via phone and fax with collection instructions and a corresponding member list. The following options are available for record submission:

- Fax, mail or secure email
- An onsite visit by Molina; based on the volume of records
- Providers may allow Molina access to their Electronic Health Records (EHR) for quick access to records pertaining to the HEDIS® project.

Email RegionB_EMRSupport@MolinaHealthCare.com for EHR setup

To learn more, view our [Disability Awareness & Sensitivity Training](#) on our website under the "Manual" tab in the MyCare Ohio line of business.

Americans with Disabilities Act

Section 504 of the Rehabilitation Act forbids organizations receiving federal financial assistance from denying individuals with disabilities. The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities that may affect public accommodations, including health care. By eliminating barriers to health care access, we can improve the quality of life for people with disabilities. To learn more, visit the [Americans with Disabilities Act FAQ](#) on our website under MyCare Ohio, in the "Manual" tab, under "Quick Reference Guides & FAQs."
