Improving Services to Molina Healthcare Members

The Quality of Care You Receive is Important to Us.

Molina wants you and your family to get the care you need. We have a Quality Improvement (QI) Program to measure how well we do. Each year, we set goals to improve the care and services our members receive. We look to see if our members are getting the exams and tests they need. We also see if you are happy with your care and provider. We listen to what you say so we can improve.

You can find information about our QI Program goals, progress, and results on the website. Please visit the Molina website at <http://www.molinahealthcare.com>.

Prevent the Flu

The single best way to prevent seasonal flu is to get a flu shot each year. As a Molina Healthcare member, you can receive your seasonal flu shot for free. Many pharmacies offer the flu shot for adult members. You can also ask your provider.

Flu season usually starts in October. Follow good health habits. Help stop the spread of germs and prevent illnesses like the flu.

1. Avoid close contact with others who are sick.
2. Stay home when you are sick.
3. Cover your mouth and nose when you cough or sneeze.
4. Wash your hands often with soap and water.
5. Avoid touching your eyes, nose or mouth.
6. Practice other good health habits. Get plenty of sleep, eat healthy foods, and manage your stress.

Health Care Fraud, Waste and Abuse

Health care costs go up every year. Health care fraud, waste and abuse are to blame for some of these costs. About 3-10% of the nation's health care costs are due to fraud, waste and abuse. This can be from \$81 to \$270 billion. High health care costs make it hard to fund programs, like Medi-Cal.

Fraud, waste, and abuse can also affect quality of care. Molina Healthcare worries about that. Molina wants to make sure all members get good quality care.

Do you think you did not get services Molina paid for? Do you think you may be a victim of fraud, waste, and abuse? Do you know someone who is causing health care fraud? You can help Molina by telling us about your concerns.

You can report fraud, waste, and abuse to Molina's AlertLine. You may call the AlertLine 24 hours a day, seven days a week. Call the AlertLine toll-free at (866) 606-3889. You may also report your concerns on the AlertLine website. You can find the website at <https://MolinaHealthcare.AlertLine.com>.

With your help, Molina can stop health care fraud, waste and abuse!

Welcome, New Members!

New members must see their primary care provider (PCP) for an Initial Health Assessment (IHA) within 120 days of becoming a member. Children must also have an IHA within 120 days of becoming a member. For children 2 years old and younger, the IHA should be completed either within 120 days, or as suggested by the American Academy of Pediatrics (AAP), whichever time period is less. Please ask your child's doctor. This first meeting with your new PCP helps you get to know your PCP when you are well. Your PCP will review your health status and medical needs.

Go to your PCP for yearly check-ups, for tests and test results, shots, and – of course – when you are ill. If you or your child needs special care, your PCP will help you get it. Your PCP will help keep you and your child healthy.

Always try to be on time for your IHA and other appointments. If you are going to be late or cannot keep your appointment, call your doctor's office.

If you have questions about seeing your PCP for an IHA, call Molina Healthcare Member Services toll-free at 1 (888) 665-4621.

Are you having trouble speaking to your doctor in English? You have a right to an interpreter. There is no cost to you. Tell the office staff if you would prefer to talk in your own language, (including sign language). If you need help, call Member Services at (888) 665-4621 (TTY/TDD: 711 for the California Relay Service), M-F 7 a.m. – 7 p.m.
