## Your Primary Care Provider

One of the most important steps in taking care of your health is establishing a medical home. When you choose a primary care provider (PCP), you are choosing a medical home.

Your PCP is the doctor who will help you with most of your medical needs. Your PCP will give you care, offer advice, and refer you to a specialist when necessary. You have the right to pick a PCP who meets your needs and are comfortable with. When you do this, you can develop a lasting relationship that will create a health care partnership for years to come.

Your PCP will work with you to direct your health care. Your PCP will treat you for most of your routine health care needs. If needed, your PCP will send you to other doctors (specialists) or admit you to the hospital. Your PCP can help with a referral to a specialist. Women may self-refer to a Women's Healthcare Provider (WHCP). Women may change their WHCP at any time.

Sometimes, a specialist may be your PCP. If you and your specialist believe that he or she should be your PCP, please call Molina Healthcare to discuss.

Each Molina Healthcare member must pick a primary care provider (PCP) from Molina Healthcare's provider network. Your PCP is your personal doctor. If you do not pick a PCP, one is assigned to you. Our provider directory lists our network providers. You can also go to [www.MolinaHealthcare.com](http://www.MolinaHealthcare.com) to get an up-to-date list of providers near you.

Some providers may choose not to perform certain services based on religious or moral beliefs.

# After-Hours or Non-Emergency Care

During normal business hours, you may call your provider's office to schedule an appointment or ask questions about your care. Your PCP's phone number is on your ID Card. Sometimes your provider's office is closed, or your provider cannot see you right away. Here are steps you can take to stop your injury or illness from getting worse:

1. **Call your PCP for advice.** Even if your provider's office is closed, the office has someone available 24 hours a day, 7 days a week who will let you know what to do.
2. If you cannot reach your provider's office, call **Molina Healthcare's 24-Hour Nurse Advice Line** at (855) 275-8750 or (866) 648-3537 (Español) (TTY /South Carolina Relay Service 711). Nurses are always available to answer your questions.
3. Go to a network urgent care center. Network urgent care centers are listed in the provider directory. You do not need permission from a provider to go to an urgent care center. **If you visit an urgent care center, always call your PCP after your visit to schedule follow-up care.**

If you are in case management, call your dedicated case manager (care coordinator) as soon as possible so he or she can help you coordinate your care and assist with any needed follow up.
