

PHONE DISRUPTION WARNING

Tropical Storm Harvey is expected to make landfall on the Gulf Coast of Texas over the next 72 hours. If your office is located in the path of the storm, there is a possibility of phone service disruption affecting EVV.

Attendants should be advised that if phone service is disrupted during service delivery, they may make a note of service start and end times or SAD device values to ensure that their visits can be verified in their EVV system once phone service is restored.
