

### **2017 First Quarter EVV Compliance**

Providers required to use Electronic Visit Verification (EVV) are required to meet the minimum EVV Compliance Score of 90% per review period as outlined in HHSC's EVV Provider Compliance Plan.

In the first quarter of 2017, 48 EVV providers contracted with Molina Healthcare of Texas fell below the required 90% Compliance Score.

Providers that do not meet the required Compliance Score are placed on a Corrective Action Plan to address any deficiencies identified.
