Prescription drug therapy is an integral component of your patient’s comprehensive treatment program. The goal of Molina is to provide our members high quality, cost effective drug therapy. Molina works with our providers and pharmacists to ensure medications used to treat a variety of conditions and diseases are offered. Molina covers prescription and certain over-the-counter drugs.

### Pharmacy and Therapeutics Committee

The Michigan Department of Health and Human Services has worked with its health plan partners to create a list of drugs that all Medicaid health plans must cover. This list is called the Michigan Medicaid Managed Care Common Formulary.

The services of the Common Formulary Committee and Molina Healthcare’s Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. Both Committees' voting members include physicians and pharmacists, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

### Pharmacy Network

Members must use their Molina ID card to get prescriptions filled. Additional information regarding the pharmacy benefits, limitations, and network pharmacies is available by visiting [www.MolinaHealthcare.com](http://www.MolinaHealthcare.com) or calling Molina at (855) 322-4077.

### Drug Formulary

The pharmacy program does not cover all medications. Some medications require prior authorization (PA) or have limitations on age, dosage and/or quantities. For a complete list of covered medications please visit [https://www.molinahealthcare.com/providers/mi/medicaid/drug/Pages/formulary.aspx](https://www.molinahealthcare.com/providers/mi/medicaid/drug/Pages/formulary.aspx)

Medications will fall into the following categories. Information on procedures to obtain these medications is described within this document and also available on the website.

#### Formulary Medications

Formulary Medications do not require Prior Authorization (PA). Molina Healthcare covers up to a 30 day supply of medication. In some cases, patients may only be able to receive certain quantities of medication. Information on quotas are included and can be found in the Formulary.

#### Formulary Medications with Prior Authorization

Formulary medications with PA may require the use of first line medications before they are approved.
Quantity Limitations

Quantity limitations have been placed on certain medications to ensure safe and appropriate use of the medication.

In some cases, patients may only be able to receive certain quantities of medication. Information on limits are included and can be found in the Formulary document.

Age Limits

Some medications may have age limits. Age limits align with current U.S. Food and Drug Administration (FDA) alerts for the appropriate use of pharmaceuticals.

Non-Formulary Medications

Non-Formulary medications may be considered for exception when Formulary medications are not appropriate for a particular patient or have proven ineffective. Requests for Formulary Exceptions should be submitted using a PA form. Clinical evidence must be provided and is taken into account when evaluating the request to determine medical necessity. The use of manufacturer's samples of Non-Formulary or "Prior Authorization Required" medications does not override Formulary requirements.

Drugs available but not covered by the Health Plans (Carve-out)

Drugs available but not covered by the Health Plans are often called “carved out drugs” because they are a covered benefit but provided outside of the health plan. In Michigan, behavioral health drugs, drugs used to treat HIV, and other classes of medication are carved out from health plan coverage. PA requests are made directly to Fee-For-Service through Magellan Medicaid Administration at www.michigan.gov/mdhhs.

Generic Substitution

Generic drugs should be dispensed whenever available. If the use of a particular brand name becomes medically necessary, as determined by the Provider, Prior Authorization must be obtained through the standard PA process.

New to Market Drugs

Newly approved drug products will not normally be placed on the Formulary during their first six (6) months on the market. During this period, access to these medications will be considered through the PA process.

Medications Not Covered

Medications not covered by Medicaid are excluded from coverage. For example, drugs used in the treatment of fertility or those used for cosmetic purposes are not part of the benefit. These exclusions are determined by the Michigan Department of Health and Human Services.
Submitting a Prior Authorization Request

Molina will only process completed request forms, the following information MUST be included for the request form to be considered complete.

- Member First name, Last Name, Date of Birth and Identification number
- Prescriber first name, last name, NPI, phone number and fax number
- Drug name, strength, quantity and directions of use
- Diagnosis
- Supporting documentation (i.e. chart notes, labs, etc.)

If information is missing the data entry team will first attempt to call your office to obtain the information. If unsuccessful, a fax will be sent requesting missing information.

Molina’s decisions are based upon the information included with the PA request. Some medications, such as those listed with (SP) Specialty on the Preferred Formulary require clinical notes for review. If clinical information and/or medical justification is missing, Molina will either fax or call your office to request clinical information be sent in to complete the review. To avoid delays in decisions, be sure to complete the PA form in its entirety, including medical justification and/or supporting clinical notes.

Fax a completed Drug Prior Authorization form to Molina at (888) 373-3059. A blank Medication PA Request form may be obtained by accessing https://www.molinahealthcare.com/providers/mi/medicaid/forms/Pages/fuf.aspx or by calling (855) 322-4077.

For a 24-hour pharmacy override, please call the Rx PA Hotline and you will be transferred to our after-hours help desk.

For information on carved out drugs, please call Magellan Medicaid Administration Clinical Call Center at (877) 864-9014.

Member and Provider “Patient Safety Notifications”

Molina has a process to notify Members and Providers regarding a variety of safety issues which include voluntary recalls, FDA required recalls and drug withdrawals for patient safety reasons. This is also a requirement as an NCQA© accredited organization. If you have any questions regarding this safety initiative, please contact the Molina Pharmacy Department at (855) 322-4077.

Specialty Pharmaceuticals, Injectable and Infusion Services

Many specialty medications are covered by Molina through the pharmacy benefit using national drug codes (NDCs) for billing and specialty pharmacy for dispensing to the patient or provider. Some of these same medications may be covered through the medical benefit using Healthcare Common Procedure Coding System (HCPCS) via paper or electronic medical claim submission.
Molina, during the utilization management review process, will review the requested medication for the most cost-effective, yet clinically appropriate benefit (medical or pharmacy) of select specialty medications. All reviewers will first identify member eligibility, any federal or state regulatory requirements, and the member specific benefit plan coverage prior to determination of benefit processing.

If it is determined to be a Pharmacy benefit, Molina’s pharmacy vendor will coordinate with Molina and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program.

Newly FDA approved medications are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee and/or the Michigan Common Formulary Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement.

Pain Safety Initiative (PSI) Resources

Safe and appropriate opioid prescribing and utilization is a priority for all of us in healthcare. Molina requires Providers to adhere to Molina’s drug formularies and prescription policies designed to prevent abuse or misuse of high-risk chronic pain medication. Providers are expected to offer additional education and support to Members regarding Opioid and pain safety as needed.

Molina is dedicated to ensuring Providers are equipped with additional resources, which can be found on the Molina Provider website. Providers may access additional Opioid-safety and Substance Use Disorder resources at www.MolinaHealthcare.com under the Health Resource tab. Please consult with your Provider Services Representative or reference the medication formulary for more information on Molina’s Pain Safety Initiatives.
