*ICD-9 codes are included for historical purposes only and can no longer be used for billing.

HOW TO IMPROVE HEDIS SCORES

❑ Use appropriate billing codes as described above.

❑ Document all elements of a preventive exam including health history, developmental history, physical exam and education/anticipatory guidance.

❑ Educate patients on the importance of having at least one ambulatory or preventive care visit during each calendar year.

❑ Contact patients on the needed services list who have not had a preventive or ambulatory health visit.

❑ Look into offering expanded office hours to increase access to care.

❑ Make reminder calls to patients who have appointments to decrease no-show rates.
