

Effective immediately, certain Texas advanced imaging requests for procedures considered non-urgent will be downgraded from urgent* to routine. For questions or additional information including criteria for downgrading Medicaid and/or Marketplace requests that do not meet the definition of urgent, please contact Advanced Imaging at (855) 714-2415 regarding this change.

** Urgent service request designation dictates that the delay of treatment could jeopardize the life or health of the patient, jeopardize the patient's ability to regain maximum function, or subject the patient to severe pain that cannot be adequately managed without the care or treatment that is the subject of the request.*
